## **Residential Care Facilities for the Elderly (RCFE) Board and Care Homes**

**Board and Care Homes are residential care homes licensed for six or fewer residents housed in a private residential home setting. Board and Care Homes provide non-medical custodial care in a single family residence. This includes assistance with activities of daily living such as bathing, dressing, toileting, housekeeping, transportation to medical appointments, and supervision of medication. For those suffering from Alzheimer's or other form of Dementia, a Board and Care Home can be ideal because there are fewer residents and fewer staff which can lower stress and anxiety. Board and Care Homes can be a very dignified and cost effective alternative to living independently. Because of the wide range of services offered, consumers should look closely at the cost and program of each facility to determine what will meet their specific needs.**
